EVENTS.AERO

FOR CLUBS, FLYING SCHOOLS, MUSEUMS AND AIRFIELDS

REACH BEYOND THE CLUBHOUSE, FREE

Put your fly-in, open day or club night where people look for aviation events, and know who's coming before the day. It costs nothing, and we check every listing.

WHAT IT DOES FOR YOU

Reach people beyond your club

Stop relying on the club WhatsApp group. Your listing goes on the pages people browse when they're looking for somewhere to fly or something to do.

Know how many aircraft are coming

Pilots RSVP to fly in after reading your PPR notes and landing fees, and give their registration. Cap the arrivals if parking is tight.

Already on here? Claim it

We may already list your event from your own website. Claim it, and once we've checked, you edit the dates, details and photos yourself, and it shows as coming from you.

Share the work with your committee

Invite committee members or staff to manage the event with you. Everyone sees the same list of who's coming, so nobody works from an old spreadsheet.

Know your numbers before the day

Stop counting thumbs on the group chat. Guests RSVP free and get a confirmation email. You get one list to download, with a cap if space is tight.

A free poster, made for you

No more fighting Word. Print a ready-made poster for the clubhouse or village noticeboard. Its QR code opens your event page.

Selling tickets already? Keep your box office

Add your booking link and a "from" price. Your listing sends buyers straight to your own ticket site.

Checked by a person before it goes live

We read every event before it's published. If something's missing, we send it back with a note saying what to fix.

LISTED IN THREE STEPS

1. **Create your free account**
   It takes a minute. Your events and RSVP lists stay in your account.
2. **Add your event**
   Date, place, a photo and a few lines about it. Your draft saves as you go.
3. **We check it and put it live**
   If anything needs fixing, we tell you what. Then it goes live.

WHAT IT COSTS YOU

Nothing. Listing, RSVPs, fly-in arrivals and posters are free for you and your guests, so there's no paying a ticketing site to run a free event. Paid ticketing comes later. Listing stays free.
